

# OGROM CIRCUS – I Felt so Happy (Single)

Fourth Single from the upcoming Vinyl EP "the world barely makes a sound". Recorded in a filmed live tape machine session. Video available on YouTube. The song was composed and arranged by Hannes Fröhlich and was later adapted and arranged to the bands full line-up. Over a decade of making music together, the formation has bonded as an intuitive live session band. This live session experience was now ritualized in an analog way at Virtuose Vibes Studio, where the band recorded the upcoming EP live to an old Tascam multi-track tape machine in september 2024. The warm tape compression gives the song its very special energy.

„Energetic rhythms, polyphonic vocals and massive organ sounds gonna revive the psychedelic of the sixties in a modern pop-robe.“

hannes fröhlich – vocals, guitar  
maxim richter – guitar, backings  
wenzel fröhlich – drums, backings  
cornelius hütter – bass, backings  
florian wenzel – organ, synth
