WORKSHOP

„HOW TO CREATE A LOOP“

with Konrad Kuechenmeister

„HOW TO CREATE A LOOP“

YOU WANT TO KNOW, HOW TO USE A LOOP STATION?

You are a musician or you just love music and want to learn, how only one person can sound like a whole Band? Come and join the workshop with **Konrad Kuechenmeister**, one of the first Live Looping Artists of Germany.

In the world of music a **Loop** indicates a circuit of sounds and rhythms which are perpetually repeated. With the **LOOP STATION**, you can create this Loops intuitively in real time. Infinitely inspiring, the Loop Station has become an essential performance instrument for beatboxers, singers and club performers around the world.

In the Loop Station Workshop you will not only learn the basics of live looping, but also the use of “on board effects”. With these effects, you can create groovy and professional sounding beats out of tiny noises, recorded with your mouth or from anything around you.. Get Creative... !

The workshop is in english...

ABOUT KONRAD KUECHENMEISTER

In 2006, Konrad Kuechenmeister started his live looping career as a street musician in the streets of Berlin. Not even one year later, Konrad was on Tour in Brazil to play shows with his Loop Station on festivals, theaters and as the official support act of MANU CHAO. Since then, Konrad played more than 1200 shows in Europe, USA, Namibia, South Africa, Brazil and China. Due to a tight concert and tour schedule, Konrad doesn't really give workshops often. But if so, he enjoys to give all of his know how and experience to Loop Station beginners and individual coaching for advanced live loopers.
